I. OVERVIEW

Bucharest Territorial Branch of the Order of Architects of Romania announces the **Bucharest Architecture Annual** - XVII edition 2019.

The **2019 Architecture Annual** initiates the program under the title "**Forum Bucharest** " for a period of two years.

The purpose of the forum is to analyze various architectural and urban development opportunities of Bucharest as a **capital city** from the **European perspective**. The program will invite international professionals in the fields of **Architecture, Construction** and **Urban Planning** to generate **debates** on various topics about **policies, regulations, procedures** and **social programs** implemented in European countries that provide growth and sustainable development of cities.

This program will generate a set of **actions and cultural events** that will involve both professional architects, members of the construction industry, institutions and local government officials, and the general public.

A summary of these debates and actions will result in **Bucharest Forum Charta**, a guideline document meant as a **strategic guide** for the city and various other initiatives to develop contemporary urban context.

Annual Competition Projects in parallel with the **Forum program**, will present examples of best practice architecture in Bucharest and in the country.

In tandem with this release, the Bucharest Annual site - www.anuala.ro - will become the main **online search engine for architecture** in Bucharest. The general public and potential clients, will be invited to discover the online digital archive containing: finalized **architecture projects** and **conceptual architectural projects** as well as **architects, architecture teams and companies** in Bucharest and the country that develop and build the Capital.

Starting with 2019 the Bucharest Architecture Annual will award all the components of an architecture project from the architectural approach to the construction and completion of the works. Together with the architects, all professionals who will contribute to the completion of a building: customers, developers, entrepreneurs, institutions, project managers, engineers, will receive diplomas.

II. PARTICIPATION

Participants from all sections Bucharest Architecture Annual 2019 include:

- 1) all members of the Bucharest branch of the Order of Architects in Romania;
- 2) architects members of other regional branches of the Order of Architects of Romania with projects built in Bucharest;

Projects must be completed within the last six years and never participated in other editions of the Bucharest Architecture Annual.*

V. REGULATIONS & SELECTION CRITERIA

The Project contest entry is made by filling out the online registration exclusively at www.entryform.ro/anuala2019/.

Materials are delivered only in electronic format and can be downloaded from www.anuala.ro. Printing materials and support projects will be provided free of charge by AAB2019.

The selection process will be done in three stages:

1. Pre-selection of projects (competition entry technical requirements) - **completed**
2. **On-line judging** of the pre-selected projects resulting in a short list of projects (5-6 projects depending on the section). The short list will also include the final nominated projects [2-3 projects / section]. – **jury duty (to be completed)**
3. **On-site judging** for the nominated projects after which a winner will be selected.

- After the online judging, a short list of nominated projects (shortlist) will be selected which will include nominated projects.
- For each section, there are two up to three nominated projects. Only the nominated projects are the subject of Bucharest on-site visit.
- From the nominated projects, the jury chooses the winner.

GENERAL SELECTION CRITERIA:

- **INNOVATION - 2 points**
- **CREATIVITY - 5 points**
- **CONTEXT - 2 points**
- **SUSTAINABILITY - 1 point**
